IS CHANGED**

SUMMARY

Youth With A Mission (YWAM) in Battambang, Cambodia was started in 2006 as a ministry reaching out to Cambodians through a variety of training programs and community projects. The purpose of our organization is to **equip and empower** communities in order to see transformation in Battambang, all of Cambodia, and throughout Southeast Asia through **education, training and the love of the Gospel**. We currently serve 400-500 Cambodians daily through **six major community projects and four training programs**, with a staff of 75, of which 42 are Cambodians.

As we continue to grow we need to expand and consolidate our base of operations. We are in the process of **building a new campus** to facilitate the expansion of our training programs and community projects.

We have purchased and prepared a **13-acre** piece of property at a cost of \$800,000 raised from personal supporters. In order for us to start the construction of our new facilities, **we are trusting God for the finances for this building project to help empower this Nation In One Generation.**

CAMBODIA'S HISTORY

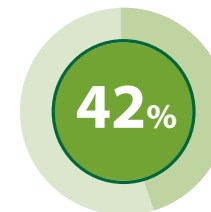

In 1975 the **Khmer Rouge** overthrew the government of Cambodia, **killing an estimated two to three million people**, including virtually all of the educated population. Although the Khmer Rouge lost control in 1979, they continued to fight back until 1997, causing the country to be war-torn for over twenty years. Political instability has continued into the new millennium and **the genocide has marked the Cambodian people forever.**

ONE NATION IN ONE GENERATION

Throughout history there have been **windows of opportunity** in nations for the Body of Christ to bring the Gospel at key times. At times Christians have seized the opportunity and at others we have missed it. How we respond now will determine the destiny of nations. **Can a Nation be Transformed in One Generation?** Yes! If we seize the Window of Opportunity.

Is it possible? In the 1950's Korea was in a similar situation to contemporary Cambodia.

SIXTY YEARS AGO:

- Korea was coming out of war
- Korea was highly culturally Buddhist
- Korea was one of the poorest nations in the world
- Korea was lacking in the areas of education, healthcare, and basic infrastructure

TODAY:

- South Korea is about 30% Christian
- South Korea is the 15th richest nation in the world
- South Korea sends the second largest number of Christian missionaries
- South Korea is one of the most educated nations in the world, with world-class standards of healthcare, excellent infrastructure, and a commitment to human dignity and equality for all people

So, how was South Korea transformed in one generation? **The Body of Christ seized the opportunity in South Korea.** Unfortunately, the window of opportunity was closed in North Korea and the people labor in poverty and human indignity to this day. Sixty years ago both Koreas came out of the same history and yet they have walked into two completely different futures. **What was the difference? The power of the Gospel to Transform a Nation in One Generation!**

North Korea

South Korea

WHAT WILL BE CAMBODIA'S DESTINY?

Cambodia's Window of Opportunity is now. What will be its destiny?
A South Korea? Or a North Korea? **Who will help?**

YWAM BATTAMBANG

Battambang is the second largest city in Cambodia and is a farming hub and emerging market in Southeast Asia. In 2006, YWAM started a ministry with a small team of **four International Staff** giving Cambodian youth **free education programs** with a sense of value for self and others. This has expanded into a multi-dimensional outreach to the community with **75 full-time staff, including 43 local Cambodians** who have been trained by YWAM Battambang.

WHAT MAKES US UNIQUE?

- All of our staff and volunteers raise their own financial support
- We are sustainable. All of our operating costs are covered by staff and volunteer-raised support and fees charged for the training schools
- All finances given to our Campus Project will go 100% to the Campus
- We are completely debt-free and are committed to being debt-free
- The staff we train desire to see their communities and nation transformed

TRAINING PROGRAMS

Education + Training + Valuing All People = Empowering One Nation in One Generation

DTS (DISCIPLESHIP TRAINING SCHOOL)

A missions training school which emphasizes core values in order to equip Cambodians for long-term ministry and missions. In this 6-month course all students get in-class training as well as lots of hands-on ministry experience in Cambodia and in the surrounding nations.

PHASE 2 (STAFF & LEADERSHIP INTERNSHIP)

A leadership training course that provides a platform for Cambodian leaders to practically apply what they have learned in the DTS by serving in our ministries as they grow in the calling that God has on their lives. We help them walk out the passion God has put in their hearts and the gifts God has put in their lives to bless the nations.

SBS (SCHOOL OF BIBLICAL STUDIES)

A 9-month intensive Inductive Bible School taking future missionaries through all 66 Books of the Bible while understanding the historical background and context, and helping them to correctly interpret the Bible. In the end, not only do the students know the Bible well, but they have a tool that enables them to study the Bible for the rest of their lives and help others to know the Bible.

TITUS

A follow-up course to the SBS, Titus empowers SBS graduates by training them in teaching and preaching the Bible. After three weeks of teaching there is a nine week outreach, teaching Bible seminars all over Cambodia and the surrounding nations, helping the students refine their teaching and preaching skills as well as blessing the Body of Christ by training others to know the word of God.

DTS EQUIP

This six-week training seminar brings together DTS staff from all over Cambodia as well as from the surrounding nations to be equipped to continue to train missionaries from the nations of Vietnam, Thailand, Laos, China, and Myanmar.

STRATEGIC TRAINING HUB

Here in Cambodia **we are strategically located right in the middle of four of the remaining communist nations** that are closed to the Gospel, including: **Vietnam, China, Laos, and Myanmar**. God has been speaking to us here in Battambang that He wants to use this place to be a **training hub for our region**—people will come from the nations to get trained and then sent back to the nations. We have begun to see this happen in various ways as we recently ran a DTS for the Chinese, all of the Vietnamese YWAM staff joined DTS Equip, and we have hosted several trainings for people from over 23 nations. God is using Battambang as a training hub for the region, and **this place is becoming a strategic location to bring multiplication of missions through training indigenous and international missionaries to be sent out into our region.**

Over the last seven years we have trained **372 Cambodian leaders** which has resulted in:

372 Cambodians trained through different missions training schools for long-term missions and ministry

93 Cambodian Missionary Teams sent out all over Cambodia and to the nations of Myanmar, Laos, Vietnam, China, Bangladesh, India, and Tajikistan to preach the Gospel and serve the least, the last, and the lost

1,574 international volunteers have served in Cambodia on 143 Service Teams

13,291 at-risk children ages 3-14 taught core values and loved

12,267 youth ages 15-25 educated at our Youth Development Center

57 at-risk women educated, empowered and loved

45 children and families suffering with HIV/AIDS helped by a project that has built a support group and walked with them through their trials

11 villages with clean water projects

63 unskilled Cambodians trained and employed at Café Eden

Over
30,000
people's lives have been changed by YWAM in Battambang

COMMUNITY PROJECTS

Equipping + Empowering Communities in Battambang, Cambodia and Southeast Asia

COMMUNITY DEVELOPMENT

Empowering locals to develop their villages through training them in sanitation, clean water projects, literacy projects, vocational training, and basic healthcare.

CAFÉ EDEN

Creating jobs for over twenty local people, allowing them to receive training that will transform their lives. All the profit from the Café is poured back into our community projects.

CHILDREN AT RISK

Reaching out to children in six different villages and slums to educate them in Christian morals and values and build relationships with the family unit.

YOUTH DEVELOPMENT CENTER

Educating 300-500 youth everyday in language, computer, core values, arts, and music which enables them to get jobs and pursue higher education. All of our teachers also use this to build relationships and share the Gospel.

WOMEN AT RISK

Empowering women to leave abusive situations and be trained in skills including English, sewing, cooking, and computer skills to enable them to get legitimate and productive jobs in the future.

JEEVIT'S HOUSE (HIV/AIDS PROJECT)

Equipping 45 children and their families to break out of the poverty cycle caused by the stigma of being HIV positive.

CHURCH PLANTING

Evangelizing and discipling small groups of 10-15 believers in eight different villages to grow the Body of Christ in our city and province.

OUTREACH TEAMS

Hosting over 300 short-term volunteer teams every year in order to serve our ministries as well as other local ministries, churches and non-profits to show the love of Christ.

CAMPUS DEVELOPMENT PROJECT

As we have expanded and grown as an organization, the Cambodians have taken ownership of the vision and we have realized that we need to think long-term. As we have grown **we currently rent 17 different facilities** spread out over approximately 5 square miles. We recognize the **need to consolidate to a long-term facility**. With this new facility, we will operate with more efficiency and continuity so that we can continue to grow and see Cambodia **empowered through this generation**.

After looking at over 50 locations we found a perfect **13-acre property, five minutes from downtown**. The 88 year-old Buddhist Landowner looked at us and said, "Because you are educating our youth and developing our city, I am going to sell this to you for one-third of the market value." As we requested permission from the city for this project, we were able to present the **Campus Plan** to the Governor. When he saw it, he said, "Please do this as quickly as possible, **we need this in our city**."

Within six months, we saw God provide the **\$800,000** that we needed and we **bought the property debt-free**. Most undeveloped properties in Cambodia are rice fields that have to be raised and filled before building. From February to April 2013, we filled the property and compacted over **17,000 dump truck loads** of dirt to prepare the land for building. A Swiss engineer, who has worked in Cambodia for 16-years overseeing construction projects, and an American architect, who primarily designs building projects in the developing world, have both volunteered their services for this project **pro-bono!**

“ Because you are **educating** our youth and **developing** our city, I am going to sell this property to you for **one-third** of the market value.

CAMPUS DEVELOPMENT PROJECT

By focusing on **Education, Training and Valuing All People** we have seen our staff create projects that **educate communities in mitigating poverty, sex-trafficking, and corruption.** YWAM Battambang is not just an organization, but a community of people that are committed to empowering One Nation in One Generation for the sake of the Gospel.

The vision of the Campus is **two-fold** in order to combine **training and influencing the community.** We have found this to be effective over the last seven years. The Campus will be a fusion of:

1. A Community Center in the front which will draw in people of all ages for a variety of different training courses, services, and activities with the goal of building relationships while sharing the Gospel with the people of our city.
2. A Missions Training Center that empowers and equips Cambodians, not only to be in full-time ministry in Cambodia but also to be sent to the nations as cross-cultural missionaries.

COMMUNITY CENTER

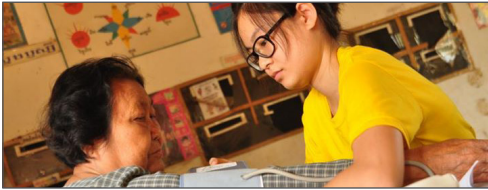

WELCOME CENTER

At the front of the Campus, the Welcome Center will include an information center, a small café, and bookstore.

YOUTH DEVELOPMENT CENTER

A facility accommodating up to 600 youth being trained in multiple languages, educational subjects, and life skills. This facility will also be used as a preschool in the future as well as potentially the first International School in our city.

COMMUNITY AND HEALTH SERVICES CENTER

Facilities for projects to trafficked women, a clinic and delivery room, and a vocational training school for hotel management, hospitality, graphic design, and IT.

MULTI-PURPOSE FACILITY

Open space for big gatherings, worship, and training seminars, as well as recreation.

RECREATION

In Battambang there are no real parks or playgrounds. Families and children will come to the Campus to enjoy the full-size soccer field and playground.

TRAINING CENTER

CLASSROOMS

Classrooms for the DTS, Phase 2, SBS, and Titus.

DORMITORIES AND FAMILY HOUSING

Five dormitories, each housing up to 70 staff and students. As family housing is a priority for us, we will also have buildings that are able to comfortably house about thirty families.

CAFETERIA AND OFFICES

The Kitchen and Cafeteria will be able to feed 400-500 people on the bottom floor.

Yuka Eam

Yuka has been working with YWAM for three years and is the Director of the **Discipleship Training Schools**. His primary focus is developing the staff and leaders of the DTS.

Sineout Sum

Sineout has been working with YWAM for five years. She started the **Women at Risk Project** to provide trafficked women an opportunity to leave the sex-trade and find hope in Jesus.

Channouen San

Channouen has been working with YWAM for five years. He leads our **Church Planting** ministry to start vibrant churches in unreached rural villages.

Sat Ang

Sat was born and raised in Battambang and has been working with YWAM for five years. He leads the **Student Volunteer Internship** which facilitates over 300 volunteers that serve in Cambodia every year.

Meiling Stock

Meiling has been working with YWAM for seven years. She has worked with the **Church Planting** ministry to start vibrant churches in unreached rural villages.

Kunthea Keoung

Kunthea was born and raised in Battambang and has been with YWAM for four years. She helped to start **Café Eden**, creating jobs for people stuck in poverty, reinvesting the profit back into the community.

Thera Pich

Thera has been working with YWAM for five years. She helped to start the **Children at Risk Project** and the **HIV/AIDS Project** empowering these children and families and sharing Jesus' love.

RESPOND

GOD IS LOOKING FOR VOLUNTEERS

*"Whom shall I send, and who will go for us?"
Isaiah 6: 8*

Who is willing to go? Who is willing to volunteer? We believe God is looking every day, just like the day He looked and Isaiah responded.

The question is: **How will we respond?** All of us can respond in different ways to God. Some need to go and some need to help send through prayer and finances. How will we respond? Will we volunteer like Isaiah and say, "Yes! Me God! I will Give, I will Go, I will Sacrifice to make Your dreams come true?"

EVERY PENNY COUNTS

*"...the poor widow came and dropped two coins in... 'this poor widow
has given more than ALL the others.'" - Jesus
Mark 12: 42-43*

When we look at the vision that God has given YWAM Battambang, it is huge and that is because God sees the big picture and He is a Big God with Big plans for Cambodia. **In the midst of a huge vision, God uses normal people to come together to accomplish His plans.** All of us can choose to respond like Isaiah and volunteer.

Here are some ways that you can join with what God is doing in Cambodia to see Redemption, Restoration, and Revival:

- BRING A WORK TEAM TO HELP BUILD THE CAMPUS
- GATHER A PRAYER TEAM TO PRAY WEEKLY FOR THE CAMPUS PROJECT
- GIVE FINANCIALLY TO HELP FUND THE CAMPUS

MIRACULOUS MULTIPLICATION: HOW GOD WORKS

*"We have nothing here but five loaves and two fish.' And Jesus said,
'Bring them here to me.'"
Matthew 14:17-18*

When God led us to buy the original property **we had only \$5,000 and estimated that we needed \$750,000** to buy and fill the land. Similar to when the disciples looked at a crowd of five thousand people, it seemed impossible, but with God all things are possible (Mark 10:27). God spoke clearly to us from this story of Jesus feeding the five thousand, to **bring what we had and then He would miraculously multiply.**

The next week we had an offering of extreme generosity, and many people gave everything that had in their bank account (which usually isn't much as missionaries in YWAM). Some of our staff sold their motorcycles, phones, and bikes.

As the offering was being taken there was a pastor visiting from the States that came and said they would match the offering. We took an unbelievable offering of \$21,000! When it was matched by the church, we saw God provide \$42,000 in one morning. Six days later we received a call from a friend and donor who said that they were going to match that \$42,000, for a total of \$84,000 in one week! They went on to say that they were committing to match \$375,000. **In eight months we had seen Him miraculously multiply what we had given and all \$750,000 came in. This is how God works, through miraculous multiplication!**

As we prayed about **Phase 1** of building the Campus we felt to trust God for **\$3,000,000 which would include all the infrastructure and a number of key buildings.** This seemed like so much money that it was impossible. We prayed and prepared for months and there wasn't much movement. Then as we waited patiently, we got amazing news.

A FRIEND AND DONOR HAS COMMITTED TO A TWO-FOLD PROMISE:

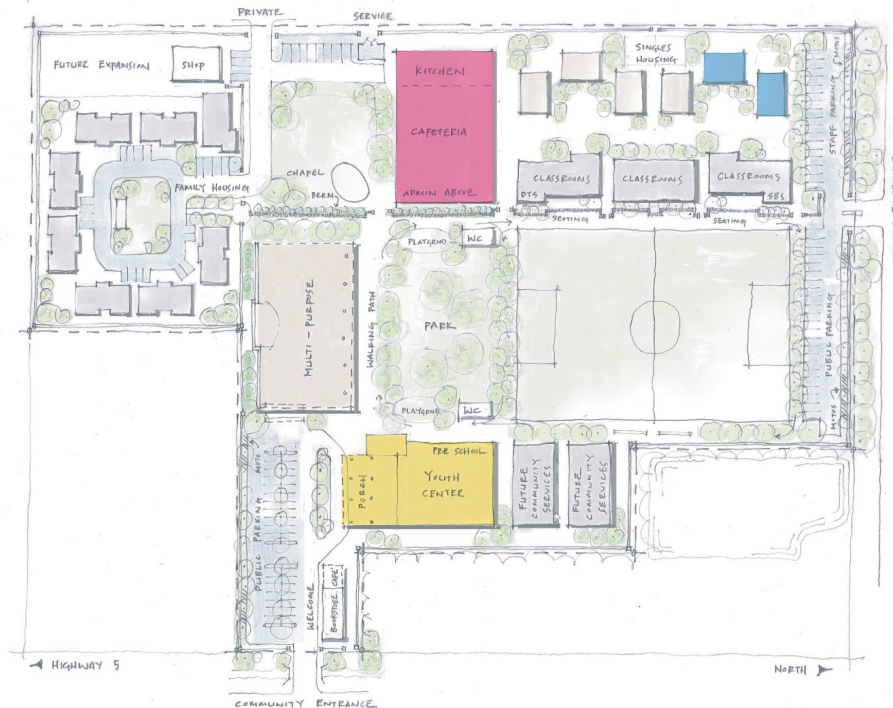

- **\$1,000,000 has been given to jump start the project with primary infrastructure**
- **Another \$1,000,000 is committed as a matching fund, so as we raise \$1,000,000 the donors will match every dollar given**

Phase 1
=
\$3 million

DOUBLE YOUR INVESTMENT IN CAMBODIA'S FUTURE

You can be a part of the power of multiplication. **Every dollar that is given to this project will literally be doubled and invested into building the Kingdom of God in Cambodia.** God has given us an incredible opportunity because in order to see **Phase 1** completed we need an additional \$1,000,000. **Your: \$100 = \$200, \$1,000 = \$2,000, \$10,000 = \$20,000 or \$100,000 = \$200,000 ...**

Phase 1 Includes:

-  Infrastructure
-  Cafeteria, Kitchen, and Office
-  Two Dormitories
-  Youth Development Center

Would you **prayerfully consider** how God would lead you to partner in His miraculous multiplication while **transforming One Nation in One Generation?**
